COVID-19 Protocols

Michael Minton
President

Bob Widdows
Treasurer

In an effort to help mitigate the transmission of COVID-19 the Lantern will be following the guidelines of the CDC, the Ohio Department of Health and the Cuyahoga County Board of Health. To meet this emerging public health crisis the Lantern will be:

-Establishing enhanced cleaning protocols. This includes wiping down high traffic areas 3 times a day with a bleach water solution and then cleaning the area with a disinfecting spray.

-Encourage good hand hygiene and cough etiquette. We will train residents and staff the proper method for effective hand washing. Post visual reminders of proper hand washing techniques. Place alcohol-based sanitizer in high traffic areas and encourage use with visual reminders.

-Eliminate all outside recovery meetings. All residents will be required to attend mandatory in-house recovery meeting located at 12160 Triskett road for the next 3 weeks.

-Cancelling large events. Establish a process to temporarily postpone or cancel events, programs or services of more than 50 individuals.

-Limit the traffic & flow of outside individuals entering the Lantern. Group therapy facilitators can decide to stop volunteering on their group day.

This is an emerging public health crisis that is rapidly evolving and the Lantern will stay up-to-date and ready to change protocols as guidelines change.
